123 Shire  
Surrey, England

We are a nonprofit organization that specializes in creating prosthetics for children who have lost limbs due to birth defects, illness, and/or injury. We manufacture our prosthetics in Surrey, England and send them all over the world, making prosthetic limbs of all types, and sizes. We cater to families who do not have the resources to pay for expensive prosthetics for their children. We offer free consultations, free fittings, along with free prosthetics that fit your child's needs. We offer other services as well. If your child needs a unique and specialized design, we can make one. We believe that all children deserve a chance to live their best life.
